

GCCA In Numbers (GNR) Data – Online Access (User Guide – Step by Step explanation)

GCCA Lead – Abhishek Shukla

September 2025

Introduction

- The GCCA is a CEO led industry initiative. We represent more than 80% of the world's concrete industry outside of China, having key members from China. Our mission is to position Concrete to meet the world's needs for a material that can build and support growing, modern, sustainable and resilient community.
- It's [members](#), [Board of Directors](#), and [Executive team](#) are committed to sustainability – reducing the impacts of cement production and promoting the unique properties of concrete as a sustainable, durable and resilient building material – a material that will answer the needs of a growing and increasingly urban population that is set to exceed 9 billion people by 2050.
- The not-for-profit international association has an executive team and secretariat that is directed by the Board on behalf of members to deliver a programme of activity with the support of member led working groups and task groups. GCCA works closely with national and regional cement and concrete associations partners.
- In 2020, member companies of the Global Cement and Concrete Association came together as leaders in the sector to commit to producing carbon neutral concrete by 2050, in line with global climate targets – accelerating the CO₂ reductions that we have already achieved. Our 2050 Net Zero Roadmap sets out in detail how collectively, in collaboration with built environment stakeholders and policymakers, we will fully decarbonize the cement and concrete industry and provide net zero concrete for the world.

Accessing the GCCA GNR Data (1/10)

To begin the admission test, follow the steps below:

- 1 Open your web browser (Chrome, Firefox, Edge, Safari, etc.)
- 2 Click here, [GCCA registration URL](#)

Accessing the GCCA GNR Data (2/10)

1. Fill out the form:

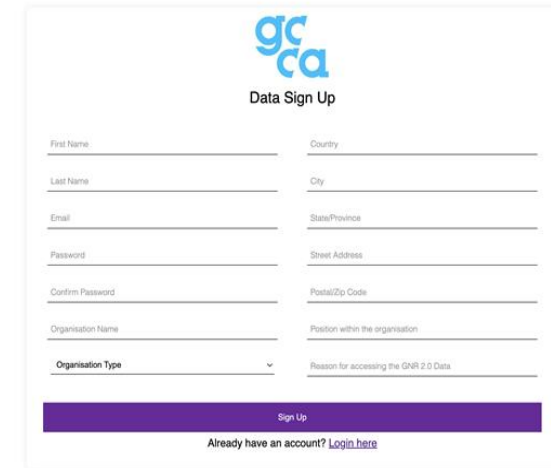

Before starting, please take note of the following information

0

Important Disclaimer

- After visiting this page, you'll be redirected to the PwC identity platform and prompted to sign in again. To avoid any login issues, please use the same credentials on the PwC platform as well.
- Account activation will take place within two hours.
- We closely monitor all access requests, so please provide a clear and detailed explanation for your access. If the reason you provide doesn't meet our criteria, we have the right to reject or suspend your access.

1

The screenshot shows the 'Data Sign Up' form for GCCA. It includes fields for First Name, Last Name, Email, Password, Confirm Password, Organisation Name, Organisation Type (dropdown), Country, City, State/Province, Street Address, Postal/Zip Code, Position within the organisation, and Reason for accessing the GNR 2.0 Data. A 'Sign Up' button is at the bottom, with a link to 'Login here' for existing accounts.

2

Please complete the form with qualitative input so that we can better manage our database in a qualitative manner. All fields are mandatory.

- **First Name:** Please enter a valid name (2–50 characters; letters, spaces, hyphens, apostrophes).
- **Last Name:** Please enter a valid name (2–50 characters; letters, spaces, hyphens, apostrophes).
- **City:** Please enter a valid city name.
- **Street Address:** Please enter a valid address (5–150 characters, including letters and numbers).
- **Postal/Zip Code:** Please provide a valid zip code.
- **Reason for Access:** Must be between 20 and 400 words.

6. Once logged in, you must agree to the mandatory terms and conditions of the "**Terms of Use**" contract

Important Notice

Please read these terms carefully before proceeding. You must accept the terms to continue using the GCCA GNR Dashboard.

GCCA Getting the Numbers Right (GNR) 2.0 Dashboard Access

Terms of Use

Whereas

These Terms of Use have been developed in the context of the 'Getting the Numbers Right' project (the Project) for managing a sustainability information system for the cement industry worldwide, an initiative initially developed by the Cement Sustainability Initiative (CSI), a program of the World Business Council for Sustainable Development (WBCSD) which was transferred to the Global Cement and Concrete Association (GCCA) on 1 January 2019. Launched in January 2018, GCCA is dedicated to developing and strengthening the sector's contribution to sustainable construction. GCCA aims to foster innovation throughout the construction value chain in collaboration with industry associations as well as architects, engineers, and innovators. In this way, the association demonstrates how concrete solutions can meet global construction challenges and sustainable development goals while showcasing responsible industrial leadership in the manufacture and use of cement and concrete. GCCA is led by international cement companies and is headquartered in London, England. It complements and supports the work done by associations at a national and regional level.

The Project is a voluntary partnership between cement companies from around the world committed to integrating sustainable development into their business management practices. The Project companies represent a significant volume of the global cement production capacity. GCCA aims to encourage the broadest possible participation in the information system from cement companies and federations worldwide, extending beyond the company members of GCCA (its affiliates).

The objective of the Project is to obtain representative information about sustainability performance of clinker, cement, and concrete production regionally and globally. The resulting aggregated information will be used both by the User individually and for work with governments, NGOs, and international organizations, to help develop and support climate policy research and implementation. Aggregated data will be used to identify global trends and different categories of the industry performance with the aim to support development of sustainable solutions.

2.4 Accessing the Data Platform

a. The User will take all necessary measures to ensure that it will not authorize, permit, or suffer any other person to use their User ID and password for the Data Platform. The User is fully responsible for all use and access of the Data Platform. The User must notify GCCA gnr@gccaassociation.org if they no longer wish to have access to the Data Platform (for example if they no longer work for the organisation mentioned during registration).

b. The User must not use the Data Platform in any way that causes, or may cause, damage to it or impairment of the availability or accessibility of the Data Platform (for example if they use any way which does not comply with applicable law and regulations and/or French public order).

c. The User will take all possible measures to ensure that the Data Platform is not accessed or used on any publicly available equipment.

d. The Data Platform is provided 'as is' and its use is at Accessing Party's risks. PwC/GCCA does not warrant that the Data Platform, its functions or the results of using it, will be suitable for User's intended use, or that the operation of the Data Platform will be uninterrupted or error-free. If it is not commercially reasonable to cure any non-conformance of the Data Platform with its expected operation, rights to use the Data Platform may be terminated.

e. PwC and GCCA will be entitled to (a) keep accurate, complete, and current records and logs of all access to the Data Platform; (b) monitor use of the Data Platform; and (c) maintain such records after access has been withdrawn.

f. User agrees to use the Data Platform and output generated by the Data Platform only in connection with the task described in the Agreement.

g. All warranties, express and implied, regarding the Data Platform and its operation and security are excluded to the extent permissible by law. PwC may suspend or terminate access for any or all of the Accessing Parties if PwC deems it to be necessary.

Final Step: Agreement Required

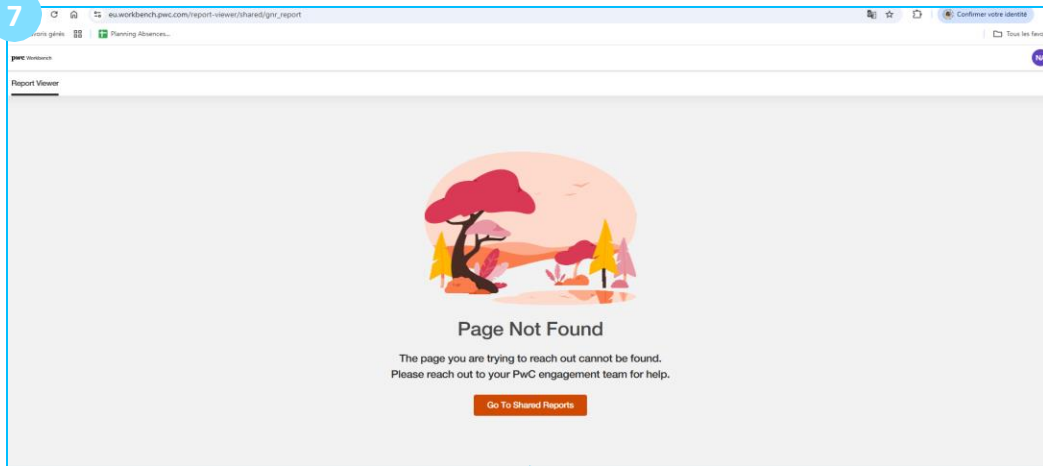

To complete your access to the GCCA GNR Dashboard, please review and accept the terms below.

☐ I agree to the terms and conditions.

Accept and Continue

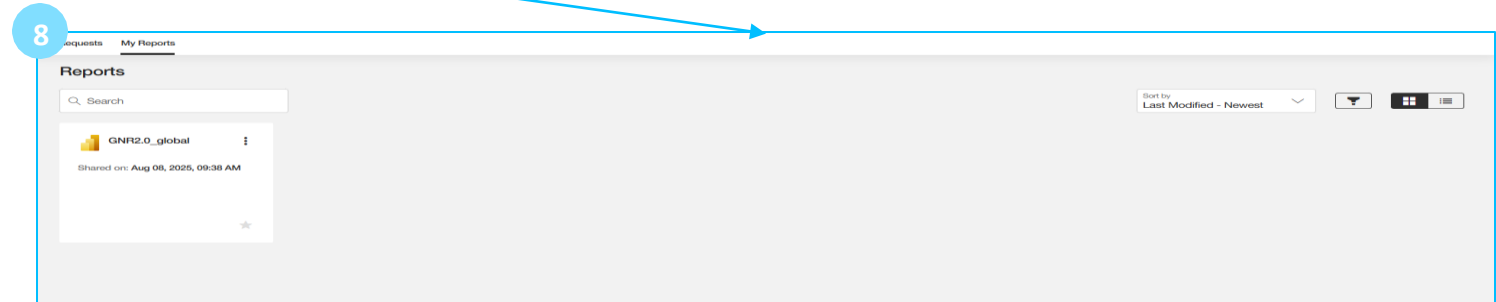

Accessing the GCCA GNR Data (8/10)

7. Once accepted to the terms , You must go to "Go to shared reports"

Important note:

Please note that the report is updated six times a day. Depending on when you access it, the report may not function immediately. If you connect before an update has been completed, only the Home page will be visible.

Accessing the GCCA GNR Data (9/10)

7. Once you click on the report 'GNR2.0_global', you will land on the Home page.
